EMSET 2021

FREE ONLINE CONFERENCE

Zielona Góra, June 10 – 11, 2021

On behalf of the Conference organizing and scientific committee EMSET 2021
and Polish Society of Mechanical Engineers and Technicians

We would like to invite you to II International Conference EMSET2021
(Engineering Materials. Safety – Environment – Technology)

The upcoming edition is scheduled from 10 - 11 June 2021 (online)

The scope of the Conference covers broadly understood topics related to
engineering materials in the human environment

More information about EMSET 2021 you will find on our
website: www.emset.wm.uz.zgora.pl

We do very much hope that you will accept this invitation. We look forward to
working with you to make the Conference a memorable event.

Conference topics:

- alternate materials / material substitution,
- biomaterials and nanomaterials,
- biomimetic research,
- clean and sustainable manufacturing processes,
- critical and transient combustion phenomena (ignition, extinction, flame spread),
- design and processing of iron and steel materials, metal alloy materials, biomaterials, ceramic materials, composite materials, environmental friendly materials, optical/electronic/magnetic materials,
- fire toxicity and pollutants,
- future generation materials,
- green design, manufacturing and machining processes,
- green manufacturing,
- hazardous and explosive materials,
- material flammability and flame retardancy,
- non-ferrous materials,
- recycling and re-manufacturing of materials and components,
- wood materials.

FORMS OF PARTICIPATION IN THE CONFERENCE:

Conference participants are exempt from fees

[1] Oral presentation – active participation (15 minutes)

- presentation in English (power point presentation, on-line multimedia),
- the speech may be in English or in the speaker's native language,
- the participant receives a Certificate confirming active participation in the EMSET2021 Conference.

[2] Poster Session – active participation

- poster presentation in English,
- posters should be sent by May 15, 2021 (igabryel@wp.pl),
- posters will be placed on the EMSET2021 website,
- until 30.05.2021 it will be possible to send questions to the authors of the posters,
- the participant receives a Certificate confirming participation in the poster session of the EMSET2021 Conference.

[3] Listener - passive participation

- the participant receives a Certificate confirming passive participation in the EMSET2021 Conference.

After the conference, until 30.11.2021, all conference participants are invited to submit articles. After positive reviews will be published in the form of a monograph "Engineering materials. Safety - Environment – Technology"

We do not charge any publication fee from the authors for the papers to be published in monograph.
